THE IOWA LEGISLATURE. A TIR IN THE HOUSE-ORGANIZATION OF THE SENATE-THE SALARY STEAL VIGOROUSLY CON-

DEMNED. [BY TELEGRAPH TO THE TRIBUNE.] DES MOINES, Jan. 13.-The Legislature met yesterday and perfected a temporary organization, and to-day the House attempted to organize by electing a Speaker. The first ballot showed a tie vote of 50 for the Republican nominee and 50 for the Anti-Monopoly candidate, and the whole day was spent in voting with no different result. The Republicans have 50 straight votes and the Anti-Monopolists 47; three Independents voted with them, and with these lies the choice of Speaker. The Senate met to-day and completed its organization by electing Republican officers. The Senate stands 34 Republicans to 16 Anti-Monopolists. ORGANIZATION OF BOTH HOUSES-INTRODUCTION OF

SMALL BILLS-A SMALL ATTENDANCE OF LOBBY-

INTS-PROSPECT OF A DULL SESSION-THE GOV-ERNOR'S MESSAGE. FROM THE REGULAR CORRESPONDENT OF THE TRIBUNE. TRENTON, Jan. 13 .- Both Houses of the Legelature organized to-day. The Senate elected John W. Taylor of Essex, President; Mr. J. F. Babcock of Middiesex, Secretary; Mr. J. W. Newlin of Cumberland, Clerk, and B. F. Wood of Salem, Engrossing Clerk. There was a long and unexpected straggle in the Senate blican caucus between the adherents of ex-Senator Irick of Barlington and those of Mr. Babcock for the Secretaryship, the vote standing 7 to 7 for nearly two bours. The Assembly elected Mr. G. A. Hobart of Passaic, Speaker; Mr. Linnickson Chew of Camden, Clerk, and Col. Applegate of Monmouth, Engrossing Clerk. The slight disaffection in the informal caucus of the Republican members of the Assembly last night was amicably settled. A considerable number of unimpertaut bills was introduced in both Houses. In the As embly a resolution was passed requesting the Speaker to appoint two new committees—one for the laws, and one on railways and canais.

In the Democratic caucus to-day the following preamble and resolution were adopted quantinously:

Whereas, It is currently reported that an effort will be made by certain railroad corporations to repeal the law formed at the last session of the Legislature, known as the "General Railroad Law;" and Whereas, We consider the law just and expedient, and would regard its repeal as an act detrimental to the interests of the people;

Some of the members of the caucus were, last year, very zealous supporters of monopoly on the floor of the House. There are several of the old lobbyists here, but the number is much smaller than in former years. The galleries and halls of the Capitol are more or less deserted, and everything wears a peculiar ap thy. The indications are that the session will be short and of no special interest, aside from the adoption of the constitutional amendments. The presiding officers of both Houses will announce their committees to-mor-

one of the most important, and at the same time one of the most important, and at the same time one of the most difficult subjects demanding the attention of the Legislature, is taxation. It is almost impossible to frame a tax law that will operate equitably in all cases. There is a want of uniformity in the practical enforcement of the present law. Where doubtful points have not been adjudicated by express decision of the Supreme Court, each assessor construes the law for himself, and different rules of assessment prevail in different sections of the State. Even if the Legislature should be make any radical change in the present system, still a supplement should be passed declaratory of legislative intent in reference to the parts of the law that admit of doubt in construction, and where there is not uniformity of opinion and practice. Through uncertainty of the precise meaning of some provisions, a large amount of property that should be assessed escapes taxation. Many letters from various provisions, a large amount of properly that should be assessed escapes taxation. Many letters from various parts of the State have recently been addressed to me requesting opinions and instractions in reference to several sections of the tax law, all of which have been referred to the Attorney-General. It is represented that in some counties real estate is assessed at its full value, while in others it is not rated at more than one-half its actual worth. The Legislature should at once act upon this subject and provide for the equalization of values so that every section will bear its just proportion of the public burdens.

On the subject of fisheries he remarks:

The United States Commissioners of Fisheries have furnished several thousand salmon spawn, which have been placed in the Musconetcong and the head waters of the Baritau. During the Summer a camp was established on the Delaware for the purpose of hatching shad, and thousands were deposited in that river. Attention is directed to the recommendations of the report of the Commissioners. Fish culture is no longer an experiment. I recommend an appropriation with a view of stocking all our rivers and streams with fish.

## THE VIRGINIA SENATORSHIP.

LIEUT.-GOV. WITHERS NOMINATED BY THE CON-SERVATIVES-HIS ELECTION BY AN OVERWHELM-

RICHMOND, Jan. 13.-Upon the reassembling of the Conservative caucus this morning a rule was adopted to drop the lowest name on each ballot and allow ne renomination, and further requiring that at nominations be made before the first ballot. Under this rose eight ballots were taken. On the fifth ballot ex-Gov. Walker, being the lowest, was dropped. On the sixth ballot Judge Christian was dropped, and on the seventh James Barbour. On the eighth ballot four names were voted for with the following result :

R. E. Withers, 34; R. M. T. Hunter, 32; John Goode, 31;

The hour of 12 having arrived, a recess was taken in order to allow the regular meeting of the General Assembly. Both Houses met, and without transacting any business, the presiding officers of each House vaca sed their respective chairs until 5 o'clock. The contest in the caucus was now between Withers. Hunter, and Goode, Stuart having been dropped. At 12:30 p. m. balloting was resumed. Goode was dropped on the ninth ballot, and the tenth ballot resulted in a majority for Withers over Hunter, and his nomination was made

Intense excitement prevailed in the lobby previous to the last ballot, and when the result was announced a rush was made by the crowd for the Senate Chamber, where Col. Withers was standing. After handstakings and congratulations on all sides, he was called upon for a speech. He responded, declaring himself overcome by his feelings. He had no thought but for the grandeur and prosperity of Virginia. He complimented his chief competitor, Mr. Hunter, in glowing terms. He realized that the nomination was through no personal favoritism to himself, but was a marked expression that Virginians were resolved to honor those who, in the dark days of war, had upheld the flag of the old Common wealth. He had been charged with being an extremist, and still prone to look back with regret upon the lost cause; but, while he loved old Virginia and her grand traditions and usages, he hoped he had strived at the age of discretion, and, appreciating the altuation, should ever be ready to support any measure that might redound to the interest and prosperity of the new Virginia.

The General Assembly resumed its session at 50 clock. Intense excitement prevailed in the lobby previous to

that might redound to the interest and prosperity of the new Virginia.

The General Assembly resumed its session at 5 o'clock, the Senaic, in the absence of Lieut. Gov. Withers, being presided over by Senator Thomas of Fairfax. The election of United States Senator was then taken up, and the name of Col. Robert E. Withers presented in both Houses in highly enlogistic speeches. Gen. W. C. Wickham, the Hou. J. F. Lewis, and J. P. Evans (colored) were nominated by the Republicans. The combined vote in the two Houses resulted as follows: Withers, 12: Wickham, 6; Lewis, 8; Evans, 16. One vote was east in the House for Calch Cushing. The Assembly then adjourned until to-morrow at 11:30 s. m., when there will be a joint session and the vote will be canvassed and formally unnounced.

THE TEXAS GOVERNMENT. GOV. DAVIS'S MESSAGE TO THE LEGISLATURE-HE

PAVORS AN APPEAL TO THE PEDERAL GOVERN AUSTIN, Jan. 13.-The following is Gov

Davis's address to the Legislature: EXECUTIVE OFFICE, STATE OF TEXAS.

GENTLEMEN: In reply to your verbal communication made to me to-day, I have to state that I do not think it advisable for the public good that I should disregard the decision of the Supreme Court.

Bade repently, touching the late election, by recognizing

the gentlemen you represent as being the constitutionally elected Fourteenth Legislature. It seems to me that there is some better selution of the present difficulty than that the Government and those claiming to be the elected Legislature should jointly combine to override the judiciary and discreared their construction of the Constitution. I must believe that such a course would leave the door open for dangerous uncertainty in the future, both in the matter of authority to enact the legislation that may be provided by the gentlemen you represent, and in the matter of the Constitution and the existence of the highest tribunal of our State. There may be found two Supreme Courts, and even two Legislatures claiming authority. It is even now claimed by some that the XVIIth Legislature is at present the only legally existing Legislature, and that it only can constitutionally convene and provide for this emergency. It will then, after all, be a settlement brought about by a species of revolution or violence as against the Court making the decision. It is true it is easy enough, and it seems the simplest solution of the present difficulty that we should jointly adopt this course, as the Supreme Court has no way of enforcing its decision as against the Executive and Legislature combined; but I consider that in this case the easiest course is not one that I would like to be a party to. I shall be happy

that I would like to be a party to. I shall be happy to join you and the gentlemen you represent, in apply mig the promptest and most feasible remedy in this difficulty. It has been repeatedly held that the recognition of Congress and the Excentive of the United States will settle the question as to what body of men sonstitute the Legislature, and which is the propar State Government. This way affords a solution to be accepted by all. I am more free to act with independence in securing with you or those gentle men that sort of solution because I feel myself entirely disinterested herein. I accept the election, whether constitutional or not, as conclusive whether constitutional or not, as conclusive against myself, and will in no event continue to exercise the functions of the office I hold beyond my constitutional term of four years. Respectfully, EDMOND J. DAVIS, Governor.

ASSESSMENTS.

CHARLESTON, Jan. 13.—The exactions of the Legislature by way of new taxes are much beavier than in any preceding year, and have aroused intense feeling throughout the State. A large and earnest meeting o property-holders was held, yesterday, in Columbia, to start a concerted movement for the relief of the people. The resolutions urge the Tax-payers' Convention to re assemble, present the condition of the State to Congress. and ask that it be remanded to a territorial condition and ask that it be remanded to a territorial condition or be placed again under military rule. A number of speeches were made—one of them by a colored man—all declaring that the assessments have been outrageously high and that the people will not stand the abuse any longer. The Executive Committee of the Tax-payers' Convention met here to-day, and unanimously resolved, in view of the necessities of the times and a due regard for the common welfare of all classes, that the Tax-payers' Convention shall reassemble in Columbia on the 17th of February. The resolutions further declare the move-mult to be in opposition to the frands and corruptions February. The resolutions further declare the movement to be in opposition to the frauds and corruption which prevail, and in favor of an honest governmen with equal and exact justice to all.

OR'S MESSAGE. SALT LAKE CITY, Jan. 13 .- The Territorial Legislature organized yesterday, and the Governor message was delivered to-day. He says that many of the laws now being enforced were ordained by the General Assembly of the State of Descret before the organization of the Territory by Congress. A system of com men and free schools is recommended. Attention i called to an act of the Legislature giving property left by deceased or absconded persons without legal claimant to the control Treasurer of the Perpetual Emigration Fund; also, to an act by which that fund is placed under the contro of the Church of Jesus Christ of Latter Day Saints. The Governor says that the Territorial Marshal is not and cannot be legally elected under the law as it now stands; that the Probate Courts rightfully have no stands; that the Probate Courts rightfully have a equity or criminal jurisdiction, yet overrise both; that the Jury law is defective, and that no panel can be drawn under the present law that will be legal; an that the Attorney-General, Marshal, Treasurer, Labraian, Anditor of Public Accounts, Superintenden of Public Instruction, Warden of the Penutent ary, and Notarios Public were not nominate and confirmed in accordance with the organic ac-

The Cincinnati Enquirer protests against THE TRIBUNE'S complaint that the Government's tend ency to inflation is already stimulating wild speculation again in Wall-st., and seems to declare itself fairly for inflation. It says: "There are others than those who possess coupons and dividends who are fully as interested themselves in bringing what influence they can or Congress immediately on this currency question. They are the great body of the people, who want to see and experience activity in every department of human in dustry, agriculture, commerce, manufactures, mining, building, and the opening up of new enterprises, that labor may find ready and constant employment, and labor may find ready and constant employment, and profits, not loss, be the result of industry. They should ery aloud that Congress may also hear their 'claimor,' as it is called, for an increased volume of currency. A growing country like the United States requires the volume of currency to augment with the increase of its business, and the demands that genius, energy, and enterprise make for the means to work with. That fact should be impressed on Congress far more assiduously and vizorously than the stand-still, stagnation, hard-times policy of the bondholders and National bankers."

## A TEMPERANCE CRUSADE.

THE WOMEN OF OHIO SUPPRESSING THE LIQUOR TRAFFIC-EXTRAORDINARY SCENES. [BY TELEGRAPH TO THE TRIBUNE.]

COLUMBUS, Ohio, Jan. 13 .- For some time past a vigorous temperance movement, chiefly led by women, has been in progress in a number of towns in this State with marked success. The plan is to visit the saloons, hold prayer-meetings in them, and by persua-sion induce dealers to stop the business. At Wilmington popular feeling has been so fally aroused that it is reported to-night that every drinking saloon is closed. At Sabina a like result has been reached. At Sabina a like result has been reached. At Gallipolis a Temperance League was organized on Saturday last. A procession of 80 ladies visited the drinking saloons, and by prayers and appeals endeavored to stop the tradic. At some houses the doors were closed against them, but they held their devotional exercises upon the steps. At one saloon, known as the "Robbers Roost," they purchased the entire stock, and emptied the liquors into the gutter amid the ringing of church-bells and the cheers of the lookers-on. A temperance mass meeting there to night was thronged with people.

At New Yienna the same movement has been begun, meetings have been held daily, and to-day was chosen for a round of calls upon saloon keepers. All went smoothly until the ladies reached the saloon of one Van Peit. Upon entering his den they were ordered to seave but declined and began their devotional exercises. During a prayer when the leader intered the words, "May the Lord baptize him with his Holy Spirit," the enraged Van Pelt seized a buckel of filthy water and huried the contents over them saving, "G—d—you'll baptize you." He repeated his act without causing any interruption in the exercises, and finding dirty water of no avail, as began to throw beer upon the ladies until they were finally driven from his den thoroughly drenead. They finished their exercises and should dirty water of no avail, as began to throw beer upon the ladies until they were finally driven from his den thoroughly drenead. They finished their exercises and salos his door, while he stood at the window denouncing them with horrible imprecations. Pnole indignation against him is fully aroused, and it is probable the men in the town will dinish the work by the destruction of his place of business.

ARREST OF ALLEGED BURGLARS.

M. Cunningham, aged 26, who gave his occupation as an engineer, John Conroy, aged 26, who said he was a stonecutter, and James Corcoran, aged 22, who claims to be a mechanic, were arrested yesterday by detectives on suspicion of their being the men who robbed the store of Adolphe Hanks, the Sixth-ave jeweier. a few nights ago. The detectives believe Mr. Hanks will be able to identity these men as the ones was entered his store, zagged and bound hun, and stole his property.

## CHARITY'S HIGH FESTIVAL

THE INFANT ASYLUM BALL. GENDINE SUCCESS-THE ATTENDANCE AND RE-CRIPTS LARGE-THE MUSIC, DANCING, COMPANY,

The broad mantle of charity has often casion to "cover a multitude of sins," but last evening at the Academy of Music its clasticity was well taxed to include the abundance of excellences and merita. The second annual ball for the benefit of the "New-York Infant Asylum at the Academy of Music brought out; the very features of a great charitable festival. That was to be expected from those who had the matter in hand. Last year with an effort they put their entertainment in the front rank. This season they equaled the achievement of tast. In estimated receipts the second occasion has gone beyond its predeceasor. In 1873, \$14,014 was received, and nearly \$12,000 cleared. This year, it is computed, the total receipts were nearly \$2,000 more. The boxes were sold for about \$3,000 each time, and this amount covers the expenses, leaving the remainder of the receipts to given. In attendance last evening's featival did not differ largely from that of 1873, being about 3,000 in each instance. In these thousands were included the first gentlewomen and gentlemen of New-York with some

It was a gloomy time when they resolved to repeat their experi The panie was in its full force still, and its devastating effects were plainly visible among those gay circles upon the enterprising managers of balls rely for their most remunerative patronage. But in spite of all discouragement the ladies who have charge of this excellent charity determined to overcome every obstacle and not allow the Winter to pass with its ball. Not only in numbers was a success, but in the and the high character of the assembly, it was such as its directors can regard with the highest pride and satisfaction. A distinguished foreigner present observed that it was an impossibility to collect in any public place in Europe so well-bred and well-dressed a company, and the sum realized was greatly in excess of those great benevolent balls in which majesties and serene highnesses interest themselves.

attire was refreshingly common for an occasion so notable for spleador in dress, and there were not wanting instances of the audacity of wearing again the tollette worn at the same ball last year. But the ambitious toilettes were so claborate as to keep up the reputation of the Infant Asylum ball in that regard.

In the presence of military and naval officers and of city officials, as well as in the attendance of prominent merchants, bankers, and the like, leaders in business, tegether with the leaders in society, the ball was amply honored. In conduct as in preparations, there was shown excellent discretion and watchful care. No small praise is given by the directors to Theodore Moss for suggestions and vaiuable assistance in many ways. He was presented by the lady managers of the ball with a handsome basket of flowers, wrought in red pinks on a white ground was the word, "Thanks," Accompanying the basket was a card bearing the names of the donors and their acknowledgement of the services rendered by him in getting up the ball.

In the music, the arrangement of the dances, in the supper, and in fine, in almost every detail of the affair, there was found room for commendation. In the way of decoration there were the usual tall vases heaped with flowers and set about the platform; there was the pretty monogram of the Asylum in gas-jets over the stage; there was adornment of the principal prosecu-ium-box with drapery and laces bearing the monogram again in gay hees, and there were two obtrusive police-men at the main entrance in the floor. nen at the main entrance to the floor.

The charity which "suffers long and is kind" thad

The snow did hold off till after the ball was fairly under way, and perhaps the fear of it did not deter many. When it did come it was sharp, and, driven by cutting winds made the return of the guests much more undersant than their coming. The doors were opened at \$330 p. m., and the programme was entered upon promptly. Soon after 10 o'clock the opening grand match was led by Gen. Lloyd Aspinwail, President of the Board of Managers, with Mrs. C. K. Garrison, first directress, followed by the Vice-Presidents and other officers of the ball, the Hon. and Mrs. L. M. Bopen, W. F. Ever since the opening of the asylum, which combines the benefits of a refuse, a reformatory, and a nursery, the efforts to aid its work have been frequent and strenuous. This season a children's fair and a series of tableaux have been held, which have brought in considerable gains, and it is proposed soon to give a large fair. Any and every effort for the benefit of this charity has always received the heartlest response. In saving of the lives of little ones, and in caring for and raising the mothers who have failen, the work of this institution has been very successful. It has been decided to build a number of cottages in the country for the use of the asylum as soon as the means shall be procured. During the past year 200 children and 111 mothers have been had in charge, and at present 163 children and 70 mothers are in its charge. Last year the Legislature appropriated \$30,000 to its building fund, and by the success of its annual balls and its other sources of revenue the charity is in a reasonably prosperous condition. easonably prosperous condition.

#### A STRONG STOCK MARKET. The stock market was excited yesterday, and

the bears at last made their appearance for the first time in any force since the pante. They hammered the whole list vigorously, circulating all manner of alarming reports, and attaching preposterous importance to the various contradictory and absurd resolutions passed by the House the day before. The entire list declined from 1 to 11 per cent during the early hours. Heavy realizing sales were made, and there was also a considerable short interest developed, which may, in view of the extraordinary strength displayed by the market in subsequent railies, lead to a sharp reaction. The Vanderbilt stocks led in the general movement, Central rising from 1012 to 1021, and closing at 1021, while Lake Shore and Western Union exhibited equal firmness. The latter stock is said to be going abroad considerably. Over one hundred thousand shares of stock are already represented in the signatures to the memorial for a stock dividend.

The general strength of yesterday's market, in spite of the sharp bear campaign, is attributed to the belief that in the estimation of Secretary Richardson, as well as of most observers in Washington, the attitude of Congress, as indicated Monday's vote on Mr. Kelley's resolutions, means inev itable inflation of the currency.
